## Assessment blueprint of year-4 blocks

The year-4 will be assessed in 4 blocks

1) Block-1 (Neurosciences-2 module) will be assessed in paper-J
2) Block-2 (GIT and hepatobiliary module) will be assessed in paper-K
3) Block-3 (Renal-2, and Endocrine and Reproduction-2 modules) will be assessed in paper-L
4) Block-4 (ENT and EYE modules) will be assessed in paper-M
5) Each written paper consists of 120 MCQs
6) Internal assessment will be added to final marks in KMU as shown in table-3
7) In OSPE, each station will be allotted 6 marks, and a total of 120 (+10\% marks of internal assessment) marks are allocated for each OSPE/OSCE examination

Practical assessment will be in the form of OSPE/OSCE which will also include embedded viva stations. The details of each section are given in the tables below.

## Calculating the number of items for written and practical assessment

MCQs are allotted based on the hours given to the topics and learning objectives being covered in a specific module/block. The following formula is being used for determining the number of items in a written paper;

## Step-1:

## Formula for allocating total MCQs to a module

Number of MCQs in one module= (total module hours $\div$ total block hours) $x$ total number of MCQs (i.e., 120)

## Step-2:

## Formula for allocating MCQs to individual subject in a module

Number of MCQs for a subject= (total subject hours $\div$ total module hours) $x$ total No. of MCQ for that module

## Formula for calculating OSPE/OSCE stations for individual disciplines
